The Overdose Detection Mapping Application Program (ODMAP) constantly strives to improve deliverables, functionality and outputs on behalf of its Participating Agencies. To achieve these goals, the Washington/Baltimore High Intensity Drug Trafficking Area (W/B HIDTA) seeks to collaborate with vendors who can help improve the effectiveness of ODMAP. W/B HIDTA has successfully collaborated with vendors for research, data mining, technical and other purposes. The W/B HIDTA (and ODMAP) is a federally funded not-for-profit grant program. Prospective vendors must follow the Office of Management and Budget (OMB) Guidance for Grants and Agreements found at 2 CFR §200 as well as the HIDTA Program Policy and Budget Guidance.
